Structural Glazing Facade System
Strüktürel Cam Cephe Sistemi

Descriptions / Tanımlamalar

Brand / Marka		Profile type description / Profil tip tanımlamaları	
A	Brand ALCAS	M	Mullion Mulyon
F	System Type Facade Sistem Tipi Cephe	T	Transom Transom
50	Series Length Seri Genişliği	V	Vent Kanat
R	Profile Type Profil Tipi	A	Adapter Adaptör
01	Group Location Gruptaki Yeri	C	Cover Kapak

Symbols / Semboller

	Corner block assembly with 45° cutting process 45° kesim işlemi köşe takozu ile birleştirme
	Milling process of merging with the vertical connection Kertme işlemi dik bağlantı ile birleştirme
	Cross-sectional aspect of strength Mukavemet kesit yönü

ALCAS Türkiye'nin en geniş kapsamlı, ekonomik ve estetik strüktürel silikon cephe sistemini sunmaktadır. Taşıyıcı sistemi 2 mm ve 1.8 mm et kalınlığı olan mulyon ve transom profillerine sahip sistemimiz 65 mm'den 150 mm'ye kadar geniş bir ölçü spektrinde üretilmektedir.

AF50 S serisi çok yönlü bir sistemdir. Bu serideki mulyonların strüktürel silikon cephe, skylight ve klasik kapaklı cephe projelerinin tümünde kullanılabilmesi uygulayıcılar için mükemmel bir avantajdır. Deprem, bina oturması, rüzgar, fırtına gibi olumsuz şartlara karşı dayanıklı olarak dizayn edilmiş AF50 S serisinde, profiller vidalarla sabitlenmez.

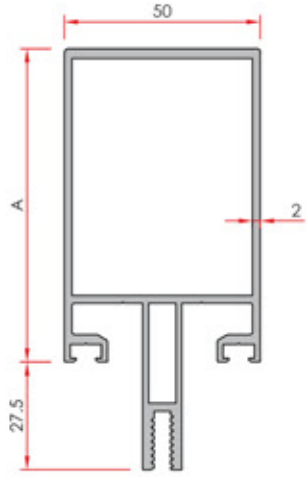

Mulyon, transom, panel, cam taşıyıcı olan tji profillerinin tümü esneme kabiliyetine sahiptir. Panel profilleri mulyon profillerine vidayla sabitlenmez. Erkek ve dişi taşıyıcılara taşılır. Böylece panel deprem anında hareket edebileceğinden kasılmaz. Cam kırılması riski en aza indirilir.

ALCAS presents the widest scope of economical aesthetic Structural Siliconized Facade System. The carrier system is formed by the mullion (vertical carrier) and transom (horizontal carrier) profiles which has 2 mm and 1.8 mm wall thickness. The width of these profiles is produced between 65 mm to 150 mm in a wide range of measures.

AF50 S series is a versatile system. The mullion profiles in this system can be used in all structural siliconized Facade. Skylight and classical cap Facade series. This is a perfect advantage for the appliers. AF50 S series is designed well against bad conditions like earthquake, building placing, wind and storm. In this series, profiles are not fixed with screws.

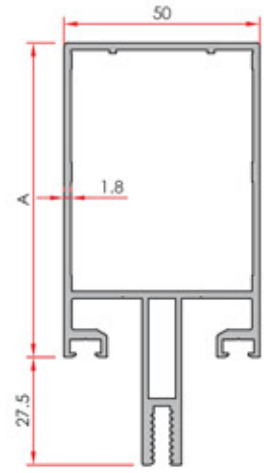

All the profiles like mullion, transom panel and glass carriers are flexible. Panel profiles do not be fixed on mullion profiles by screws; it is loaded by female and male carriers; so that panels are not fully stressed during an earthquake and the glass breakage risk is minimized.
